◀ THIS WEATHERBY MARK V BACKCOUNTRY GUIDE 7 PRC
FROM JANUARY 1 - MARCH 31, 2026

The Mark V® Backcountry™ Guide features Peak 44's Blacktooth carbon fiber stock with Spartan Precision's gunsmithing adapters factory installed. These adapters allow hunters to utilize Spartan's ultra-lightweight accessories. Equipped with an Accubrake ST and 3D Hex recoil pad, the Backcountry Guide series manages recoil extremely well even with Weatherby's historic magnum cartridges. The Guide series utilizes shorter BSF Carbon Fiber barrels making it easier to run suppressors and navigate in thick, rugged terrain.

The Chadwick Ram Society (CRS) was formed in 2013 to create a pathway for Wild Sheep Foundation members who were looking for an opportunity to contribute to the Foundation's Mission beyond their regular annual membership. In a short period of time, CRS has come to play a critical role in raising significant funding for wild sheep enhancement projects that otherwise would not have happened. Since inception, the Chadwick Ram Society has put ~\$2.8 Million "back on the mountain". The best part is, there is a level of giving for just about everyone!

- * **NEW** members will be given 1 (one) entry per pledge level.
- * **EXISTING** members who upgrade will be given 1 (one) entry per level of upgrade (Max. 4).
- * **REFER A NEW MEMBER** existing members will receive 1 (one) entry per referral.
