

## Testimonial for Women Hunt™ - Tiffany Osburn

When I submitted my application to the Women Hunt™ Program, little did I know that I would soon be embarking on an experience that would mean the world to me and change my life forever. Women Hunt™ has created an exceptionally organized and comprehensive beginners hunting program tailored to women. Through their well-thought-out selection process, the committee succeeded in bringing together a diverse spectrum of women who have now become lifelong friends and champions for one another. Our course at the FTW Ranch touched on every critical component of marksmanship and ethical hunting, all in a super fun and engaging environment. At the end of our week together, I left feeling empowered, confident, and competent with my newly acquired skills. On top of all of this, the generous sponsors of this program supplied us with quality gear that will outfit our new lives as hunters for years to come. This has truly been the experience of a lifetime and words can't begin to express the appreciation I have for the Wild Sheep Foundation and everyone who made the Women Hunt™ Program such a resounding success.
