

Reina Seraaj, CA

Reina Seraaj was born in the Philippines but was raised and currently resides in California. She is a US Navy veteran who continues her service working as an Engineering Technician for the Department of Defense. When not focused on her career or two children, she enjoys learning new things and taking on new challenges to add to her list of hobbies. Some of her pastimes include scuba diving, skiing, archery, and off-roading. Her love for the outdoors and connecting with nature led to her interest in hunting. Reina is excited to continue her journey in hunting, hoping to establish relationships within the hunting community, pursue a healthier lifestyle, and support wildlife.
