

Wild Sheep Legacy Foundation, Inc.

Board of Trustees

Background Check Policy

Wild Sheep Legacy Foundation requires Board of Trustee candidates to pass a background check prior to consideration as a Board of Trustee. The purpose of this check is to pre-screen director candidates for risk and liability issues that may reflect negatively on WSLF. WSLF is committed to protecting the Foundation from liability while safeguarding the privacy of our individual members.

Process

WSLF will use an accredited firm to conduct all background checks. Possible candidates must sign a consent form with the required personal information and send it directly to the firm conducting the background check by mail. The WSLF "Qualification Pass/Fail Criteria" will be used to access candidate exclusion or continuation in the Board of Trustee evaluation process. WSLF will only receive a pass/fail result from the accredited firm as individual privacy of our membership is of high concern. The background check company will also send a copy of the full results to the candidate.
